About Us

The California Democratic Party (CADEM) is the nation's largest statewide party. We are 10 million Democrats strong, powered by the dreamers and doers of the Golden State. Our mission is to fight for California's most vulnerable communities, protect working families and ensure that we live up to the promises of the California dream.

About the May 2023 Re-Organizing State Convention

Welcome to the California Democratic Party's May 2023 Re-Organizing State Convention in Los Angeles, California where Democrats from across that state will come together to welcome our newly elected delegates. CADEM would like to take this moment to honor our brothers, sisters, and siblings who we've lost in service to our country. As we remember those who gave their all to protect our most fundamental rights, we must never forget that our democracy stands stronger today because of those who paid the ultimate cost for our freedom.

During CADEM's May 2023 State Convention, we honor the legacy of Speaker Emerita Nancy Pelosi. As we embarked on the new year, 2023 marked an end of an era with Speaker Emerita Pelosi relinquishing her position in leading the House after 20 years of public service. From defending the Constitution of the United States, to leading the American people out of a global pandemic, to spearheading some of the most impactful environmental legislation in history, and safeguarding health care for underserved communities through the passage of the Affordable Care Act, Pelosi's leadership continues to pave the way.

Moreover, CADEM is excited to welcome the 2023 - 2025 Democratic State Central Committee Delegates! Our new delegation plays a vital role in building a brighter future for California. While our Nation continues to face extreme MAGA Republicans who are working hard to roll back our effort to build progress, the Biden Administration continues to deliver for the American people. Democrats within the Golden State and across the country have fought to protect access to safe, affordable reproductive health care for women, make unprecedented investments to create more jobs, put money back into the pockets of working families, expand on efforts to combat climate change, invest major funding to address homelessness, increase health care access for all and more. At CADEM, we know that the work to protect our most fundamental values start today.

That's why over the last few years, California Democrats are working to ensure long-term investment in our organizing efforts while doubling down year-round to embolden our grassroots campaigns through small-dollar donor contributions, maximize direct support to Democratic candidates, and empower new leaders. While we've made strides to move our Golden State forward, there is still much more to do. Join the California Democratic Party as we kick off our Statewide Convention dedicated to organizing year-round to protect our democracy and elect people-powered leaders in every corner of our state and across the Nation.
